SKILLS

Maya • ZBrush • Marvelous Designer • Houdini (Groom) • Substance 3D Painter • knald • Autodesk Arnold • Unreal Engine

WORK EXPERIENCE

COOT IMAGEWORKS | 3D MODELER

Apr 2025 - May 2026

Bucheon-si, South Korea

- Modeled realistic characters for cinematic productions, focusing on anatomical accuracy, form, and clean topology.
- Translated concept designs into believable 3D characters while maintaining design intent and technical requirements.
- Contributed to texturing and look development to support visual quality and asset consistency.
- Spearheaded the development of more efficient grooming workflows in Houdini through self-driven experimentation, collaborating with other departments to improve the pipeline.

WESTWORLD | 3D MODELER

Nov 2024 - Feb 2025

Goyang-si, South Korea

- Modeled film scale props and environment assets for feature production, optimized for rendering within a VFX pipeline.
- Modeled a key asset combining organic and mechanical elements from a single concept image, refining and proposing design adjustments for structural believability in 3D.
- Created supplementary geometry to support lighting and compositing needs under limited on set reference.

EDUCATION

Sungshin Women's University | Seoul, South Korea

Mar 2018 - Feb 2023

Bachelor of Fine Arts | Industrial Design

CG5 ACADEMY | Seoul, South Korea

Feb 2022 - Apr 2024

3D Modeling
