SUMMARY

3D Modeler with production experience in VFX and game cinematics, specializing in character, prop, and hard-surface modeling. Skilled in texturing, look development, Houdini grooming, and Unreal Engine hair simulation. Brings strong communication, organization, and collaboration to team projects, along with curiosity to learn and grow, initiative & proactivity, and problem solving and critical thinking.

WORK EXPERIENCE

3D MODELER Apr 2025 – May 2026
COOT IMAGEWORKS (3D Animation & Motion Capture Studio), Bucheon, South Korea

- Modeled character faces, bodies, armor, and props for game cinematics.
- Created textures and adjusted materials for different lighting using Substance 3D Painter and Unreal Engine.
- Created Houdini hair grooms and Unreal Engine hair simulations using a self-taught method later adopted by the company.
- Tested new tools and feedback with teammates and created low-poly proxies for rigging and geometry for FX.

3D MODELER Nov 2024 – Feb 2025
WESTWORLD (VFX Studio), Goyang, South Korea

- Modeled props and background buildings based on 3D scan data.
- Created hard-surface models based on concept art.
- Recreated scene geometry so the compositing team could generate matching lighting passes.

SKILLS

Software
Maya • ZBrush • Marvelous Designer • Substance 3D Painter • Houdini • Autodesk Arnold • Unreal Engine

Production Skills
3D Modeling (Characters, Props, Buildings, Hard-Surface) • High-Poly Sculpting • Retopology • UV Mapping • Texturing • Look Development
• Houdini Grooming • Unreal Engine Hair Simulation

EDUCATION

Sungshin Women's University Mar 2018 – Feb 2023
Bachelor of Fine Arts in Industrial Design, Seoul, South Korea

CG5 ACADEMY Feb 2022 – Apr 2024
Professional Training in 3D Modeling, Seoul, South Korea
